The CWOCN test is a computer-based exam that consists of 150 multiple-choice questions. The questions are divided into the following five content areas:

- **Wound Care (40%)**
- **Ostomy Care (20%)**
- **Continence Care (20%)**
- **Professional Practice (10%)**
- **Research (10%)**

The Wound Care content area covers a wide range of topics, including wound assessment, wound healing, wound management, and wound prevention. The Ostomy Care content area covers topics such as ostomy types, ostomy care, and ostomy complications. The Continence Care content area covers topics such as incontinence types, incontinence assessment, and incontinence management. The Professional Practice content area covers topics such as ethics, legal issues, and quality improvement. The Research content area covers topics such as research methods, research findings, and evidence-based practice.

One of the best ways to prepare for the CWOCN test is to take practice questions. Practice questions will help you familiarize yourself with the format of the test and the types of questions that you can expect.

Here are a few examples of CWOCN practice questions:

Wound Care

- Which of the following is a sign of infection in a wound?
 - A. Redness
