

# Learn the Key Words of the TOEFL Exam: A Comprehensive Guide to Vocabulary Mastery

The TOEFL exam is a standardized test that assesses non-native English speakers' ability to use and understand the English language. One of the most important aspects of preparing for the TOEFL is to build a strong vocabulary. The exam tests your knowledge of a wide range of vocabulary, including academic, technical, and everyday words. In this article, we will provide you with a comprehensive guide to the key words of the TOEFL exam. We will cover the most common words that appear on the exam, as well as their definitions and usage. By the end of this article, you will have a solid understanding of the vocabulary that you need to know to ace the TOEFL.

## Academic Vocabulary

Academic vocabulary refers to the words that are used in academic settings, such as universities and colleges. These words are often more formal and technical than everyday words. Some of the most common academic vocabulary words that appear on the TOEFL exam include:

- **Abstract:** Not concrete or physical; existing only as an idea.
- **Analyze:** To examine or study something closely in order to understand it.
- **Argue:** To give reasons for or against something.
- **Cite:** To refer to or quote from another source.
- **Compare:** To examine two or more things in order to find their similarities and differences.
- **Conclude:** To reach a final decision or opinion based on the evidence presented.
- **Critique:** To evaluate something carefully in order to find its strengths and weaknesses.
- **Define:** To give the meaning of a word or phrase.
- **Describe:** To give a detailed account of something.
- **Discuss:** To talk about something in detail, often with different points of view.

## Technical Vocabulary

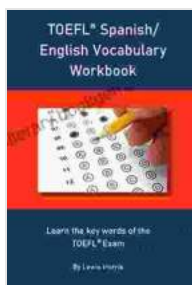

Technical vocabulary refers to the words that are used in specific fields of study, such as science, mathematics, and engineering. These words are often more specialized than academic vocabulary. Some of the most common technical vocabulary words that appear on the TOEFL exam include:

- **Algorithm:** A set of instructions for solving a problem.

- **Calculus:** The branch of mathematics that deals with change.
- **Chemistry:** The study of the composition, structure, and properties of matter.
- **Computer science:** The study of computers and their applications.
- **Economics:** The study of how people produce, distribute, and consume goods and services.
- **Engineering:** The application of science to the design and construction of structures and machines.
- **Geology:** The study of the Earth's physical structure and history.
- **Mathematics:** The study of numbers, quantities, and shapes.
- **Physics:** The study of matter and energy and their interactions.
- **Statistics:** The study of the collection, analysis, interpretation, and presentation of data.

## Everyday Vocabulary

Everyday vocabulary refers to the words that are used in everyday conversation and writing. These words are often more informal than academic or technical words. Some of the most common everyday vocabulary words that appear on the TOEFL exam include:
