Madison St Station Sam Fels, located in the heart of Chicago, is a historical landmark and architectural marvel. Completed in 1883, the station is a prime example of the Richardsonian Romanesque style and has been designated a Chicago Landmark and listed on the National Register of Historic Places.

The station was designed by architect Henry Hobson Richardson and is considered to be one of his most important works. Richardson was a pioneer of the Richardsonian Romanesque style, which is characterized by its use of heavy stonework, round arches, and turrets.

Madison St Station Sam Fels is a beautiful and imposing building that is a testament to the architectural genius of Henry Hobson Richardson. The station is a popular tourist destination and is also used for a variety of events, including weddings, receptions, and corporate functions.

## **History**

Madison St Station Sam Fels was built in 1883 by the Chicago, Burlington and Quincy Railroad. The station was named after Samuel Fels, a prominent Chicago businessman and philanthropist.

The station was originally used as a passenger terminal for the Chicago, Burlington and Quincy Railroad. However, in 1924, the station was converted to a freight terminal. The station was closed in 1971 and was abandoned for several years.

In 1985, the station was purchased by the City of Chicago and was restored to its original condition. The station was reopened in 1987 and is now used as a museum and event space.

## **Architecture**

Madison St Station Sam Fels is a beautiful example of the Richardsonian Romanesque style. The station is constructed of red sandstone and is characterized by its use of heavy stonework, round arches, and turrets.

The station has a symmetrical facade that is divided into three bays. The central bay is dominated by a large round arch that is flanked by two smaller round arches. The side bays are each flanked by a pair of turrets.

The interior of the station is equally impressive. The station has a high vaulted ceiling that is supported by massive stone arches. The walls are decorated with intricate carvings and the floors are made of marble.

## **Significance**

Madison St Station Sam Fels is a significant historical landmark and architectural marvel. The station is a reminder of Chicago's rich architectural heritage and is a testament to the genius of Henry Hobson Richardson.

The station is also a popular tourist destination and is used for a variety of events. The station is a beautiful and unique setting for weddings, receptions, and corporate functions.

## **Visiting**

Madison St Station Sam Fels is located at 112 N Madison St, Chicago, IL 60602. The station is open to the public from Tuesday through Sunday from 10am to 5pm.

Admission to the station is free. However, there is a charge for guided tours.

Madison St Station Sam Fels is a must-see for anyone interested in architecture or history. The station is a beautiful and imposing building that is a testament to the genius of Henry Hobson Richardson.

The station is also a popular tourist destination and is used for a variety of events. The station is a beautiful and unique setting for weddings, receptions, and corporate functions.
